-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a grilling system, classified in class 099, subclass 494.
- II. Claims 11, drawn to a grilling system including an insert and at least one tab, classified in class 099, subclass 419.
- III. Claims 12-20 and 27-33, drawn to a method for cooking fowl, classified in class 426, subclass 523.
- IV. Claims 21-26, drawn to a grilling system including a collection plate having a central opening, classified in class 099, subclass 446.

The inventions are distinct, each from the other because of the following reasons:

Inventions I,II,III and IV are related as method and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the method as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different method. (MPEP § 806.05(e)). In this case the apparatus as claimed can be practiced by hand or used to practice another and materially different method without the specific steps of the Group III method, i.e. twisting, coupling, etc.

Also, regarding inventions I, II and IV, the subcombinations as claimed are independent since they are not connected in design, operation or effect in the

combination, i.e., each subcombination is separately usable in the combination and the operation, design and effect of one is independent of the other.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Gibby on 12/26/2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy F. Simone whose telephone number is 571-272-1407. The examiner can normally be reached on weekdays between 8:00am-5:00pm. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
